

List of Preserved Tropical Fruit & Vegetables

We thank you for requesting or downloading this listing of Preserved Fruit & Vegetables.

It contains tropical produce all grown here in Thailand, a land of plentiful sunshine, ingesting all the goodness of the natural elements.

Be very assured about our quality of preparation! Our principal's factory has been growing, producing and exporting only the finest selected Tropical Fruit for more than 27 years! Time enough to have perfected the art of efficient production techniques and very stringent quality control standards.

In acknowledgement, they have gained many certifications: ISO 9002, TIS 18000 health and safety certifications, GMP, HACCP etc. The EU and Japanese markets, in particular, impose the strictest of standards and the factory holds many certifications of standards compliance.

All fresh commodities are subject to seasonal availability, as well as supply and demand. Please see the chart on Page 16. Therefore, it's impossible for producers to keep daily price lists, and so quotations are only issued according to enquiries.

Kindly study the list below and let us know those items that are of interest to you and revert with your required quantities. We would return as soon possible with FOB prices and their expected availability. Thereafter, we can prepare CIF costs to your port.

Thank you and we look forward to being of service to you in the near future.
